

## NEW Unique Amla, Curcumin and $\omega$ -3 (Omega-3) enriched Ayurvedic beauty care ingredients

**Amla** (*Emblica Officinalis*) is known from ancient times in India for its medicinal and therapeutic potential. Sushrutu, the father of the ancient "**Ayurveda**" (The Science of Life) system of medicine, mentioned its therapeutic potential during 1500-1300bc. "Rasayana" is one of the 8 components of Ayurveda that focuses on enhancing good health, boosting the immune system and rejuvenating and revitalizing the body and mind.

This is a superb antioxidant that belongs in the plethora of rare super-berries. Its antioxidant abilities create a deep foundation for its unique healing properties.

The many healing properties of **Curcumin** are some of the most exciting discoveries in the field of functional medicine. It counters inflammation, detoxifies excess estrogen, supports the body's antioxidant system, and helps deal with several diseases.

The ICSC has designed a series of products combining the healing properties of **Amla**, **Curcumin** and **Omega-3** using their powerful **Internal Stabilisation Technology**. These products are available as an oil or butter form.

The prolonged shelf-life of these oils and butters means that the final applications will also have increased/prolonged shelf life. These all-natural, Ayurvedic **Amla**, **Curcumin** and **Omega-3** enriched products will provide high-performance, elegant-feeling and will provide healing properties in any application when designing Natural cosmeceuticals.

## Ayurvedic Beauty Care Ingredients

**Amla Oil** Amla Oil is a Sesame oil extract from *Emblica officinalis* fruits and then mixed with a refined High Oleic Rapeseed Oil. It is a yellow colour liquid with an almost neutral odour. It contains all the actives from the Amla berries.

INCI name: Brassica Campestris seed oil, Sesamum indicum seed oil, Emblica officinalis fruit extract

**Amla Butter** Amla Butter is a Sesame oil extract from *Emblica officinalis* fruits and then mixed with a soft Shea stearine. It is a pale color butter with an almost neutral odor. It contains all the actives from the Amla berries.

INCI name: Butyrospermum parkii kernel fat, Sesamum indicum seed oil, Emblica officinalis fruit extract

**Amla Curcumin Oil** Amla Curcumin Oil is a Sesame oil extract from *Emblica officinalis* fruits and then mixed with a refined High Oleic Rapeseed Oil. It is a yellow color liquid with an almost neutral odor. Curcumin is added so the oil contains all the actives from the Amla berries as well as the Curcumin.

INCI name: Brassica Campestris seed oil, Sesamum indicum seed oil, Emblica officinalis fruit extract, Curcumin

**Amla Curcumin Butter** Amla Curcumin Butter is a Sesame oil extract from *Emblica officinalis* fruits and then mixed with a soft Shea stearine. It is a pale color butter with an almost neutral odor. Curcumin is added so the butter contains all the actives from the Amla berries as well as the Curcumin.

INCI name: Butyrospermum parkii kernel fat, Sesamum indicum seed oil, Emblica officinalis fruit extract, Curcumin

**Amla  $\omega$ -3 (Omega-3) Oil** Amla Omega-3 Oil is a Sesame oil extract from Emblica officinalis fruits and then mixed with our Internally Stabilized oil with a C18:3 n-3 content of appr. 40%. It is a yellow color liquid with an almost neutral odor. It contains all the actives from the Amla berries as well as the Omega-3 fatty acids.

INCI name: Brassica Campestris seed oil, Linum Usitatissimum seed oil, Emblica officinalis fruit extract, Sesamum indicum seed oil

**Amla  $\omega$ -3 (Omega-3) Butter** Amla Omega-3 Butter is a Sesame oil extract from Emblica officinalis fruits and then mixed with a soft Shea stearine and our Internally Stabilized oil with a C18:3 n-3 content of appr. 40%. It is a pale color butter with an almost neutral odor. The butter contains all the actives from the Amla berries as well as the Omega-3 fatty acids.

INCI name: Butyrospermum parkii kernel fat, Sesamum indicum seed oil, Emblica officinalis fruit extract, Linum Usitatissimum seed oil, Brassica Campestris seed oil

**Amla Curcumin  $\omega$ -3 (Omega-3) Oil** Amla Curcumin Omega-3 Oil is a Sesame oil extract from Emblica officinalis fruits and then mixed with our Internally Stabilized oil with a C18:3 n-3 content of appr. 40%. It is a yellow color liquid with an almost neutral odor. Curcumin has been added so the oil contains all the actives from the Amla berries as well as the Omega-3 fatty acids and the Curcumin.

INCI name: Brassica Campestris seed oil, Linum Usitatissimum seed oil, Emblica officinalis fruit extract, Sesamum indicum seed oil, Curcumin

**Amla Curcumin  $\omega$ -3 (Omega-3) Butter** Amla Curcumin Omega-3 Butter is a Sesame oil extract from Emblica officinalis fruits and then mixed with a soft Shea stearine and our Internally Stabilized oil with a C18:3 n-3 content of appr. 40%. It is a pale color butter with an almost neutral odor. Curcumin is added so the butter contains all the actives from the Amla berries as well as the Omega-3 fatty acids and the Curcumin.

INCI name: Butyrospermum parkii kernel fat, Sesamum indicum seed oil, Emblica officinalis fruit extract, Linum Usitatissimum seed oil, Brassica Campestris seed oil, Curcumin
